SGIP news

Voting Begins Tomorrow for Three New Standards, Plenary Secretary Runoff and a New Governing Board Representative

Tomorrow, Friday, April 13 will mark the opening of three important ballots for Voting Representatives of Participating Members in good standing. These Voting Representatives will be notified via a separate email with those links.

BALLOT 1: The special election for Plenary Secretary initial ballot was closely divided between the three excellent candidates. This resulted in no one candidate receiving the majority of votes. Thus, a runoff election is now being conducted between the two top vote-getters:

- Karlton G. Fredebeil, Tennessee Valley Authority
- Gregory Obenchain, Edison Electric Institute

The Plenary Secretary election will close next Friday, April 20 at 11:59p.m. Eastern. **VIEW SECRETARY CANDIDATES >>**

BALLOT 2: Catalog of Standards (CoS). Three standards have been approved by the SGIPGB for ballot for inclusion in the CoS by the membership. The three standards are:

- IEC 61850
- IEEE C37.339-2010
- OASIS Energy Interop

To allow for ample review time, this ballot will close on Friday, May 4 at 11:59p.m. Eastern.

BALLOT 3: The election for a new Category 13: Professional Societies, Users Groups, Trade Associations and Industry Consortia representative on the Governing Board will be decided between four candidates:

- James P. Fama, Edison Electric Institute
- Barry Haaser, Lakeview Group
- Bob Heile, ZigBee Alliance
- Sam Sciacca, SCS Consulting

Only Category 13 Voting Representatives will be voting on this initial ballot. An email notice will be sent to the Voting Representatives of Participating Member organization of good standing in Category 13. The Category 13 election will close next Friday, April 20 at 11:59p.m. Eastern. **VIEW CANDIDATE BACKGROUNDS >>**

2012 SGIP RECOGNITION RECIPIENT:
Vehicle-To-Grid DEWG Roadmap Subgroup

The V2G Roadmap Subgroup team of Karthik Krishna, Anne Hendry, and Joshua McDonald developed a multi-stage framework to identify and anticipate infrastructure barriers possibly delaying electric vehicle adoption in North America. The team validated the Framework by seeking input from key stakeholders and presented to relevant SAE International, IEEE committees. The Framework was very well received and is under consideration to be added to a standard. This effect on the standards development process is exactly what EISA 2007 called for. *They were presented with the SGIP Certificate of Appreciation in March 2012.*

PAP on Standard Energy Usage Information Concludes Its Work
Congratulations to the team members Priority Action Plan 10 on Standard Energy Usage Information for completing

their work. After having their work output included the SGIP Catalog of Standards, PAP-10 members continued efforts on energy usage information issues to nurture an initial implementation of that standard in a new and innovative way.

Green Button is based on the SGIP shepherded standards for Energy Usage Information (EUI) that was part of PAP-10 including NAESB REQ18/WEQ19 and later NAESB REQ21 (Energy Service Provider Interface (ESPI). This new Priority Action Plan (PAP-20) follows the evolution of the Green Button and ESPI fostering the requirements for and establishment of standards evolution, testing and certification specifications, and sample or reference implementations and test harnesses. Collectively, these actions will support a robust and rapid penetration of interoperable goods and services in support of exchange of EUI.

The development of a Standard Energy Usage Information format by PAP- will allow for follow-up work which will benefit all electrical customers for many years to come.

We'd like to hear from you! Take our Membership Survey Today
As part of our effort to better serve our members, SGIP is conducting a survey.
Please **take just 5 minutes today** to complete this short online survey.
Your input will serve as a valuable guide to how we plan activities and will be deeply appreciated!

Head to Survey: https://app.e2ma.net/app2/survey/1410964/205029519/c43142daec/
Survey will close on April 30, 2012.
